- Blending stump of your preference

### **For Station:**

- Drawing pad: 9 x 12 inches. Blick Studio and Strathmore 400 series are fine brands.

- If you have a 9 x12 inch sheet of watercolor paper, we will do one drawing on this for context, but will not be continued to learn basic theory. Cold pressed preferred (140 lb), sheets or block (Arches or Strathmore are fine brands).
- Easel (not mandatory, but helpful): This will be entirely up to you and your needs. If you have a standing easel and/or tabletop easel at home, we will use these to draw on the surface vertically. If you want to acquire one, assuming you will also be painting with watercolor later, purchase one that can be adjusted from 30 to 90 degrees.

### **Side notes:**

It's beneficial to work with the drawing surface vertically to effectively judge elements of design. Mount your paper to board and use a standing easel at home if you have one, or a small table top easel. I will leave it up to you. It's about your comfort. Easels aren't required but'll make employing these techniques much easier and enjoyable.
